Projects

- **Prinstaindia** - Involved in the development of an application which collects trending #tag images and direct upload images from an upload page to a database and prints instantly when printer que is fed with an image list. This app is used for #tag promotions.
- **Endura** - A holistic app for fitness enthusiasts which delivers local fitness events i.e., Marathons, Walkathons, triathlons, seamless event booking, latest fitness article, scheduled training and live leaderboard. We get our scores on the app & communicate regarding the events with the organizers.
- **Inc Solutions** - It's a simple e-filing website for helping customers and businesses to file their tax through this platform.
- **Nextyn** - Nextyn Trends gives you the top trending topics from across the world, so you can stay ahead of the curve and be the first to know when something gets hot!
